Marine Equipment UK Assessment
Module B Type Examination Certificate

This is to certify that TUV SUD BABT UNLIMITED did undertake the relevant type approval procedures for the type of equipment identified below, which was found to be in compliance with the requirements of the Merchant Shipping (Marine Equipment) Regulations 2016, as amended, under Annex 1 of the listed Amendment of MSN 1874 for the types of equipment identified.

MSN 1874 Amendment	**Amendment 8**
Certificate Holder and Manufacturer	**Kelvin Hughes Ltd.** **Voltage** **Mollison Avenue** **Enfield** **Middlesex, EN3 7XQ** **United Kingdom**
Product(s)	**ECDIS Navigation System (ZM-2300)**
Product Sector	**Navigation Equipment**
Product Type	**UK/4.30** **Electronic chart display and information system (ECDIS) with backup**

and on the basis of the Technical Data and information detailed in the Annex to this certificate.

Valid from: 19 March 2024   (Thomas J. Twynam)   Expiry Date: 26 August 2026

TÜV SÜD BABT is a UKAS accredited Certification Body No. 0172.
This certificate has been issued in accordance with the TÜV SÜD Testing, Certification, Validation and Verification Regulations and constitutes page 1 of the combined Certificate and Annex.
The Conditions for the validity of this certificate are listed in the Annex.

3.4   Notes

Note 1   In line with current IEC 61162-460 regulations, any IEC 61162-450 approved VDR or sensor may be connected to Port 7 of the MDC-A201-1 or Port G07 or G08 of the MDC-A201-2 or MDC-A201-3 Managed Network Switches without contacting Kelvin Hughes. Connection to unprotected networks must be via an IEC 61162-460 secure gateway.

Note 2   Each display must be connected to a Trackerball assembly; the use of a keyboard is optional.

Note 3   Keyboard and Trackerball is Keytouch Technology AS Part No. 17610398 and may also be identified by Kelvin Hughes Part No. 45-975-0731-001.

Note 4   This approval remains valid for equipment including subsequent minor software amendments which have been formally accepted in accordance with the Testing, Certification, Validation and Verification Regulation.

Note 5   May form a back-up ECDIS (via the Kelvin Hughes navigation network) with a second Kelvin Hughes ECDIS Navigation System running software as listed above.

Note 6   This ECDIS only supports IHO S-57 ENC and C-Map S-57 SENC charts and does not support RCDS format chart display. Use of vector charts other than the above will revert the status to a non-SOLAS ECS display.

Note 7   This system meets the requirements of IEC 62923-1 for EUT function type P.

4   Conditions of Validity

This certificate ceases to be valid if the manufacturer makes any changes or modifications to the approved equipment, which have not been notified to, and agreed with TUV SUD BABT or a person appointed by TUV SUD BABT to perform that role.

During the period of validity of this certificate the applicable regulations (international conventions and the relevant resolutions and circulars of the IMO) and testing standards may change, therefore the product conformity may need to be re-assessed by the Approved Body.

The "Mark of Conformity" may only be affixed to the above type approved equipment and a manufacturer's Declaration of Conformity issued when the production-control phase module (D, E, or F) of Schedule 2 of the Merchant Shipping (Marine Equipment) Regulations 2016, as amended is fully complied with and controlled by a written inspection agreement with an approved body.
