BABT-MED001083 to BABT-MED001086 Kelvin Hughes ZM-2234 Software Update to Version 2.4

To whom it may concern

The proposed changes have been reviewed along with supporting documentation detailing the modifications and their effect on product operation. In our opinion compliance with the standards listed on the following TUV SUD BABT Certificates, and therefore the Marine Equipment Directive (96/98/EC), is not effected by the modification.

BABT-MED001083	SharpEye™, MantaDigital™ S-Band CAT 1 Radar System
BABT-MED001084	SharpEye™, MantaDigital™ S-Band CAT 2 Radar System
BABT-MED001085	SharpEye™, MantaDigital™ S-Band CAT 1 HSC Radar System
BABT-MED001086	SharpEye™, MantaDigital™ S-Band CAT 2 HSC Radar System

The current applicable software version is shown in the table below.

Software:	Code Identity	Version
SharpEye™ DTX-A201 FPGA	ZM-2234	2.4

TUV SUD BABT Notified Body (0168) will keep a record of this change in the relevant Technical Files for the above listed products.

Yours sincerely

Michelle Hardy
